Experience

Moss, UX Designer (Contract)
November 2023 - March 2024

- Worked closely with startup founders to design two new interfaces from blank screens to high-fidelity prototypes
- Designed a new mobile app for farmers to collect crucial data such as plant count, type, and size, using automated technology in order to improve accuracy and costs
- Designed a desktop app for farmers to visualize collected data, allow for accurate bookkeeping, as well as to make informed and accurate forecasts for agricultural planning
- Created pitch decks to help founders seek additional funding, developed brand identity, and implemented a design system

Lucid Software, Associate UX Designer
August 2022 - October 2023

- Made critical design contributions for the immediate release of Lucid's newest product, Team Spaces
- Worked closely with design and product directors to design the future vision of Team Spaces
- Spearheaded the end-to-end design of two new, highly requested features for the core use cases of Team Spaces, balancing business, engineering, and product needs via cross-functional communication

Equity Health Innovations Lab, Research Assistant
January 2022 - May 2022

- Assisted in hosting 3 design workshops evaluating speculative design toolkits in collaboration with community workers
- Developed storyboards for health literacy video series, analyzing data collected from 15 participants over 3 focus groups
